Dear Sir/Madam,

Thank you for showing interest in Shilhaandara – The Rock Concept Theme – Ramanagar.

Shilhaandara is a monumental innovation and creation from the creators of Guhantara Resort. Designed considering external beauties of our pride - Belur, Halebidu sculptures and also kingdoms of Chalukya, Mourya, Hoysala, Kadamba and Chola, Monolithic rock of about 300 feet is the main attraction and itself is a back-drop for the entire Sports & Arts village. 15000 trees have been planted to control the temperature and also mist water sprinkler system has been adapted to keep the cool environment. We have well certified and trained staff for adventure activities along with certified sport materials. Shilhaandara have come with much of the attractive adventure sports and the other amenities.

The project comes up in the rustic surroundings of Ramanagara. The objective again is conserving the natural habitat.

We will be glad to be at your service and customize the needs to make your event special one for you.
